

Giorgia Sampò

PhD student,
+4571581905
gisa@sam.sdu.dk

Education

Digital Democracy Center, University of Southern Denmark

2024-present

PhD student

- Research group: Strategic Organization Design (SOD) and Artificial Intelligence, Cybersecurity, Programming Languages (ACP)
- Supervisors: Professors Markus Becker, and Marco Peressotti

University of Bologna, Italy

2020-2023

MSc in Digital Humanities (110/110 with Honors)

University of Bologna, Italy

2017-2020

BSc in Communication Science (110/110)

Research

Blockchain; Decentralized autonomous organizations; Computational social science; Computational linguistics; Network science

Publications

Sampò, G., Baumann, O., Becker M., & Peressotti, M., What We Talk About When We Talk About DAOs: From Survey to Socio-Technical Ontology for Decentralized Autonomous Organizations, *Under submission to Journal of Web Semantics*

2026

Sampò, G., Baumann, O., Becker M., & Peressotti, M., DAO-n't Stop Believing: Co-evolution of Technology and Beliefs in Decentralized Autonomous Organizations, *Working paper*

Rodarte, A., Sampò, G., The Propagandist Turn in Representative Politics: Lessons from Brazil, *Submitted to Journal of Information Technology and Politics*

Harman, O., Hayward, J., Sampò, G., Authority in African Cities, *Working paper*

Sampò, G., Baumann, O. & Peressotti, M. What we talk about when we talk about DAOs. *Accepted at HICSS 2026* (2026, January 6). <https://hdl.handle.net/10125/112064>

Alexy, O., Baumann, O., Hsieh, Y., & Sampó, G. Pathways to Performance: A Configurational Analysis of consensus in DAOs. (2026, January 6). <https://hdl.handle.net/10125/112065>

Sampò, G., Baumann, O. & Peressotti, M. The blind men and the elephant: mapping interdisciplinarity in research on decentralized autonomous organizations. *J Org Design* 14, 239–263 (2025). <https://doi.org/10.1007/s41469-025-00200-9>

2025

Giorgia Sampò, Saverio Giallorenzo, Zelda Alice Franceschi. A Mixed-Method Framework for Evaluating Community Cooperation Impact in Developing Countries. *Working Paper*

Laura Bigoni, Giorgia Sampò. Computing semantics in the Greek Pentateuch: an interdisciplinary approach. *XXIII International Association for the History of Religions World Congress*. (2025, August 25)

Teaching

Teaching in Organization of Innovation, SDU

2025 - present

Evaluator in IT Tools

2024 - present

<i>PhD Courses</i>	CMOT Summer School, University of Southern Denmark	2025
	Distributed Systems, SDU	2024
	Green Policies and Governance, Aalborg University	
	Introduction To Systematic Literature Review as A Scientific Inquiry, Aarhus University	
	Computational Social Science – Summer School, Lake Como School	
	Bayesian Statistics, Simulation and Software, Aalborg University	
	Blockchain For Global Commerce + Web3 and Blockchain, Coursera	
<i>Conferences</i>	5th EAI International Conference on Blockchain Technology and Emerging Applications, Cyprus Program committee Member	2026
	Decentralization in Organizations (DiO), Fontainebleau, France Attendance and Support for Online Participants	
	Hawaiian International Conference for Systems Science, Maui Track/Mini-track: “Organizational Systems and Technology” – “Blockchain: Enabling Decentralized Innovation”	
	Academy of Management (AOM), Copenhagen, Denmark Attendance	2025
	Decentralization in Organizations (DiO), Fontainebleau, France Attendance and Support for Online Participants	
	XXIII International Association for the History of Religions World Congress, Krakow, Poland Paper session: “Computing Religion: Computational Approaches, Research Databases, and Quantitative Methodologies”	
	European Academy of Religion (EuAre), Palermo, Italy Paper session: “Historical and Theological Lexicon of the Septuagint, Resilient Septuagint”	2024
	Democracy & Digital Citizenship, Odense, Denmark Attendance	
	Decentralization in Organizations (DiO), Online Attendance	
	SOD Seminars Organizer, University of Southern Denmark	2026
<i>Services</i>	DiO Website Responsible, DiO Conference	2025 - present
<i>Affiliations</i>	Casual AI engineer , University of Oxford	2025
	Tutoring in ‘Social Network Analysis’, University of Bologna	2023 - present
<i>Research visits</i>	Complexity Science Hub, Vienna – PhD Student, Hosted by Mirta Galesic	2026
	Imperial College, London - PhD Student, Hosted by Ying-Ying Hsieh	2025
<i>Skills</i>	Methods: Natural Language Processing (NLP), Network Analysis, Mixed-methods Analysis, Data Science Programming: Python, Javascript, SPARQL, Web Design skills (HTML, CSS), Ontology design and Knowledge Organization
